22. Give three observation / suggestions to improve the overall teaching – learning experience in your institution.

353 responses

Good

Nothing

No suggestions

To improve Quality education
Focus on practical education
Counciling for best future

Excellent

.

Teachers should remain aligned to syllabus

Yes

Best autonomous collage in j and k

Encourage active and practical learning.
Provide for meaningful teacher-student interactions.

Who iq and edu

1. Should be more exploring
- 2.e- learning
3. More interactive

Regular classwork,

Be friendly with students so they can share their overall weakness with you

The paper checking in the 3rd semester was not done correctly and I faced difficulty in submitting the examination form of 4th semester to some system error and had to visit college multiple time but the issue was eventually rectified . Overall the administration in the College is very good and the interaction with teachers is always good .

Teachers should give proper classis on particular time

In our college there should have integrated course for physics also...I think ICSC is best college...

Maintain gap between students n teachers...

Ggggg

Hope for best

Teachers should interact more with students

Focus on fair checking of papers ...

..

Introduce some extracurricular activities.

Understanding between teacher and student .

Assign assignments and demonstrations,

Clear concepts rather than completing the syllabus

The teachers are teach us very well but they did not interact the student

Our institution provides a very higher level of education.. so i am guessing i am not that good to suggest them something... because its already better than the best!

Please check the performance of the students

Provide Quality Education

Clear all Concepts with examples to Students

Must focus on Weak student and gain their knowledge rapidly

Can't give any suggestions , everything is just perfect

1.Classes should be held regularly and on proper time.

2.More Courses should be offered at the Institute

3.Student friendly atmosphere should be made at the campus.

Encouraging students to do better

Student-teacher communication

Use visual media LCD projectors to keep students engaged

Try to reach every students and ask their doubts

Use better graphics and visual media to engage students well

I think the teaching standard is well

Encourage active and practical learning. Make connections to real-world applications of the course material. ...

Provide for meaningful teacher-student interactions. ...

Make course expectations clear and based on learning outcomes.

Encourage Active and practical learning
Making connections to real world applications of the course material
Provide for meaningful teacher student interactions

Our icsc collage is one of the best CLG in UT of j&k .. our teachers are so efficient and we'll quality teaching skills . I learn more than I think in my CLG ... I m very thank full to our teachers... May god bless him .

Encourage active and practical learning.
There should be teacher student interaction.
Improvement in learning outcome,use of technology.

Every call shouldnt b of 1 hr

1. Use better graphics and visual media to engage students well.
2. Try to reach every student and ask for their doubts.
3. Make teaching a two way interaction.

Use better graphics and visual media to engage students well. ...
Try to reach every student and ask for their doubts. ...
Make teaching a two way interaction.

students should not be bored in the class
they shouldn't be pressurized
exam marking should be fair

- 1 use better graphics and visuals to engage students well
- 2 try ro reach every student and ask their doubt .

As per my observation
The teaching should be like a friendly environment & the students shortouted as per their choices in their subjects..

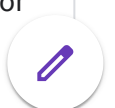

The institute Islamia College techers always prepared class and teaches Students Carly

most of the teachers just want to complete the syllabus without actually emphasising on learning, that is a big set back. online classes are still a mess for some subjects. for example maths, understanding maths is highly difficult through online classes but again that's because of covid. still my honest opinion would be that teachers should be more involved in making a learning environment for us rather than just hurrying up to complete syllabus.

Regular
On time
With honesty

They should try to reach every student and identify their weaknesses and strengths and ask for their doubts and make teaching a two way interaction.

Enhancing learning experiences

Very good teaching faculty

First interact with each and every student everyday. Secondly Pose question each other with that student. And at the end give that student level of class.

1. Encourage active and practical learning
2. Provide for meaningful teacher student intereactions
3. Make course expectations clear and based on learning outcomes

Continue teaching

Intellectual and emotional guide.

Better understanding of what helps students to learn.

Everything is ok... Teachers are very well at teaching

- 1: Teachers/institutions should made strong efforts on growing up and learning process of students.
- 2: Teachers should encourage students every situation.
- 3: Teachers/institutions must give opportunities to students to participate in curricular activities.

Teacher's should use more real life situations to clear the points

Our teacher are really good techers they always study us with 100% satisfaction.

- 1-Kindly upgrade the online teaching platform and techniques
- 2-Most of the points mentioned in the survey form should be taken up and applied on daily basis not just in the survey
- 3-Non teaching staff lacks professionalism on dealing with student queries redressal.

Teachers mostly use their mother tongue

Know about the students.

Increase your knowledge

Make the students have extra curricular activities

Use better graphics and visual media to engage students well. ...

2:Try to reach every student and ask for their doubts. ...

3:Make teaching a two way interaction.

Communicate strongly with the students,

Able to see how problems of student will slove how and how not,

To understand the students how to give exam in a proper way totally useless ur system of online exams tools

- 1) encourage active and practical learning make connection to real world applications of the course material.
- 2) listen to student concerns and respond appropriately.
- 3) use assignment to inform student of their achievement.

1. Provide opportunities for students to be a mentor and to function as a peer teacher..
2. The management should conduct debates, seminars and talks for the students.
3. The management should conduct learning activities in the classroom with the help of technology or any material.

Encourage active and practical learning make connections to real world applications of the course material..listen to students concerns and respond appropriately....Use assessment to inform students of their achievement

1 extra curriculum activities should be entertain in our campus but for all of the students not only to one or two students because every student needs physical and mental strength which we can gain from our institution .

2. Mentoring by our teachers
3. Discipline .

Very nice teaching skill
Helpful to students
Punctual to classes

- (1) Recognize students' accomplishments and respond appropriately to their concerns.
- (2) Draw connections between the course material and its real-world applications.
- (3) Provide for meaningful teacher-student interactions.

Teachers should try to know students, they should try to know what are their weakness and strength and try to work on their weakness.
the second thing teachers should do is to motivate students everytime, so that students should not worry about anything

1. More interaction between students and a teacher.
2. Frequent presentations should be made mandatory.
3. Few demonstrations of a candidate before appointing him or her as a teacher.

Nothing to say

Focus on students over all development

Everything in the college is just perfect!

It's was already good

1. Keep the students engaged in activities whether online or offline.
2. Improve college website now that everything thing is going online rather than cleaning the gardens you should keep the website interface clean, students should atleast get notification when their class has started.

3. Everyone degrades bcom students for no reason at all, every student should be treated equally like in recent days our internal exams were taken as if they were surprise tests every one else had a proper datesheet. Discrimination among students won't make Islamia the "best college" however treating every student equally should.

Lastly, but most important you should improve the management.

Teachers are very good but they should interact more with the student.

They teaches us with their full potential but incase of online learning we couldn't get properly connected.

Overall they are very good teachers.

No idea

Kindly introduce practical education for professional degrees specially for MBA.

sahi

They should upgrade there self in the new era of teaching method

Teachers give marks to those students who gave money to them i hate this abd i hate this college doing this bullshit.Our urdu paper was 70% out off syllabus but they declared failure where 70 marks of paper are out of syllabus then how we become failure and some students gave money and they declared pass this is full bullshit...

1. Installing of Permanent Projector in the Department premises so that students observe Diagrams with utmost accuracy which otherwise becomes difficult on Board for Nano Science Students.
2. There's an urgent need for Recruitment/ Appointment of fresh faculty having specialization in Nano Sciences only. Scarcity of same is proving difficult for students.
3. Least availability of laboratory equipments for Nano Science is adding to woes. Non availability of same is making impossible for students to do practicals which is matter of huge concern.

1. Teachers should act motivational and energetic while teaching
2. Teachers should not be too strict because later the student becomes uncomfortable to ask questions/queries

- 1.Seminars
2. Examination to be taken timely
3. Identify the problems of the student and eradicating those

Use some ICD tools to teach better, give better examples and prepare yourself before you start teaching.

Institute must conduct seminars and debates

Teachers should give assignment to the students that need a lot of research,reading and analytical skills.

Teachers should encourage student to ask a question regarding their topic ..

Institute should implement some strict rules.... Like proper uniform ,regular class work ,etc

1. Make efforts to reach each and every student
2. Make your online teaching platform effective and efficient and available to every student
3. Not every student is in contact with college or faculty via whatsapp make efforts to overcome it

They should be Fairly with there teaching

Before exams complete our syllabus

Teach carefully n with full concentration and listen the problems of students very carefully so that they will understand properly

The quality of teaching is very well

Teachers always help us

Always treat us very well

I don't have words to observed my words for teachers Luv u oll teachers

...

Everything is all right

Provide Internships To Students, Engage Them By Giving Them Presentations

1. Teachers can give more subject related assignments that will require student to go indepth into the topic.
2. Field work can improve students learning process.
3. Teacher needs to be more interactive with student about the topic. Rather than teaching the topic, teacher can ask the student to study by themselves and discuss the problems, what student understood by themself and what student skipped while going through the topic.

All this can improve the learning process besides it can help students to improve their quality of learning.

Teachers should be corporative, able to solve the problems of students, friendly behavior with students.

Educational/business tours should be encouraged

The three suggestions of my is.....

1. Listen to students concern and respond appropriately.
2. Conduct debates, cemnars and talks for the student.
3. Arrange visiting experts from different universities.

The three suggestions of my is

- 1..Encourage active and practical learning

- 2.. facilities in class discussion groups and group work
- 3..spend more time with students and communicate with them personally
- 4..Ask them to take a topic for self learning

353 responses

ANY OTHER COMMENTS /REMARKS / SUGGESTIONS

353 responses

No

No comments

No

Nothing

no

.

No thanks

Thanks

Good

Excellent

Nothing

No.

Canteen should be hygienic

Abe uoe wow

No remarks

Teachers are really helpful. Every teacher did their best in helping us to learn through online classes despite of all the hardships they had to face.

Arrange medical facilities

There is no complete hostel for boys and girls as well this is the big issue there

Examination department should check papers correctly and not give marks on the basis of the number of pages filled .

There ie a need of improvement in online classis

All gud

Paper tou thk se check kiya kro..

..

Sports facilities

The college has played very good role in our lives

Please don't waste the time of students

No Thank you

Rebuild boy's washroom

Fair evaluation of exam papers should be done.

Improve first aid in college

Noo

Everything is good

For me,attending Islamia college of science and commerce was a logical decision.

Take examination on proper time
And declared results on time.

dont make tough for the students

i think our college needs to emphasise more on extra curricular activities, college fests , tours etc to provide some extra exposure to it's students

Teacher's must be on duty and must be honest with the syllabus completion

Overall it's a great college providing everything a student needs.

Very good collage in Kashmir valley

Improve interaction with boys and girls at the lawns coz education is not only in books.

No sir

Unavailability of current library materials so improvement for library and for canteen as well..

I hope my feedback is taken in a most positive manner for the betterment of the institute functionality and credibility. As I strongly believe that our college has an extraordinary potential to excel further.

Best faculty of teaching members
Make the future of students best

Best college with great infrastructure

Will communicate properly to the students in a mannered way

No.....?

All rules should be applied to both boys and girls

College should improve too many things like checking papers and faculty.

Make course expectations clear and based on learning outcomes.
Update teaching methods

College management should work on the dressing of girls in college, make burqa compulsory .
if management can't do this thing then the least they can do is to rename the college

Please Keep Books Of MBA IT In Library

Satisfactory

No, the college is just in perfect condition!

Na

Improve management

They are all good teachers may Allah bless them all.

Student feedback should be educative in nature.

Maintenance of college canteen is very important. Behaviour of teachers towards student
should be very calm and kind. Because college is producing future.

They should stop taking money from students to give them marks to clear their paper

There's non availability of Nano Science Books in the Library. It becomes quite difficult to
explore this subject without proper reading material/ books.

No suggestions at all

NA

I would suggest that college must maintain their strict rules based on learning ,discipline,etc
.that I have seen

in the college since 2020

Improve the infrastructure of medical dispensary

Not at all

Our Institute is brilliant in teaching

Canteen needs to be more hygienic and equipped.

Never

"Something" I really appreciate our college faculty....

no

teachers should take care of the students

Overall Islamia College of science and commerce is the best academic functional operating college

Fvdhdh

JUST BE COOL AND FRANK TO STUDENTS

THAT'S ALL A GOOD RELATIONSHIP BETWEEN STUDENT AND TEACHER NEED'S TO BE

You keep making money, sometimes you teach well, this is not a college, it is a broker's college, empty only looks at money.

The examination cell staff should be more attentive and humble towards students. They just brag about how much work they have and almost never dealt with the problems students might be facing.

All is satisfactorily

No thanks but Please took cognisance over my suggestion.

Canteen must be well equipped and clean

Already mentioned.

chance should b given to all students in sports

In Institute canteen their are some bad things happen in the collage like smoking and much more things so management is think about that overall the other thing is good

The reason behind the poor feedback against examination cell is only on the basis of my last semester examination.

There should be basketball and badminton court

Unavailability of books

More Well Maintained Infrastructure needed

Thanku

paper checking should be properly done

T

Need of more books of nanotechnology in the library for better results in Nano science and nanotechnology

1. Faculty shouldn't be so rude with students while mock test many students were not able to understand that as there was so much of chaos. So teachers must be lenient to students. They could have taught the students about the mock test leniently as many students are not aware of the zoom..

Faculty shouldn't be so rude with students while mock tests many students were not able to understand that as there was so much of chaos. So teachers must be lenient to students. They could have taught the students about the mock test leniently as many students are not aware of the zoom...

Our principle does not work properly in 3rd sem batch 2019. He is out of syllabus. Aya income tax ka paper phir bi he ko fail rakha. Or examiner paper properly check nhi kar te

Unavailability of books in Library

Please take every suggestion in consideration

Most there is discrimination in college I find in sports as well as canteen facility. Boys portion of canteen is strongly in bad condition, And in sports the management chooses players as per their choice not as per players ability. These things should not be present fairly in college

Thanku

Best college

Teachers are best in college.....

satisfy

Management needs to be improved
