629 responses

Nothing

.

Nothing

Good

.

Zero interaction with students

...

..

Yes

Use better graphics and visual media to engage students well. ...

Try to reach every student and ask for their doubts. ...

Make teaching a two way interaction.

There should be no discrimination on the basis of favoritism

nice college

1. Integrate more interactive and hands-on activities to keep students engaged.

2. Encourage more student participation during lectures and discussions.

3. Provide more personalized feedback to students to help them improve their understanding.

Good

No need to improve

Teachers should remain aligned to syllabus

To improve Quality education

Focus on practical education

Counciling for best future

No suggestions

No suggestions

-

Excellent

Good 👍

No

Educational/business tours should be encouraged

teacher's must be frank to students
they should not act like the bad vibe teachers
A student should feel ok to ask anything from a teacher

1. Teachers should focus more on what subject material they use to teach and deliver lectures. The material usually is mediocre.
2. Teachers should understand that there are certain topics which cannot just be read out from a notebook and they are done for, they need in depth discussions. They need to create an environment where students are willing to exchange their thoughts and this also requires equal participation from the teacher's side which in turn requires them to be well equipped with knowledge.
3. The college should overall try to organise extracurricular activities which benefit students from different streams. If my subject is English Literature, I would be more than willing to participate in workshops which focus on writing/ reading or book fairs or anything like that.

Development need for it and ss

More friendly

The paper checking in the 3rd semester was not done correctly and I faced difficulty in submitting the examination form of 4th semester to some system error and had to visit college multiple time but the issue was eventually rectified . Overall the administration in the College is very good and the interaction with teachers is always good .

Syllabus should fully covered
Teacher shudent interaction
Listening students very well and help them

Other

Good teaching in all subjects

- 1) encourage active and practical learning make connection to real world applications of the course material.
- 2) listen to student concerns and respond appropriately.
- 3) use assignment to inform student of their achievement.

in

Concerned Teacher for particular subject should be constant.
Daily practicals, Increase in quality of teaching

Sitting space
Air Conditioners
Equality

Good at all

Teachers try to make clear doubts
Make a friendly environment

Use better graphics and visual media to engage students well. ...
Try to reach every student and ask for their doubts. ...
Make teaching a two way interaction.

Know about the students.
Increase your knowledge
Make the students have extra curricular activities

They are trying their best it takes to improve but looking at their will and determination I'm seeing a big enhance of improvements from faculty

Teaching with examples

They should give students external information as well

sahi

The quality of teaching is growing up day by day. But I thought can be more better than this. Practical based education is giving to student and also gives industrial experience to the student for their better future.

....I done my bachelors degree from here and also doing my master degree Msc. There is a reason of choosing this university because the environment of growth you get here is very positive and you get the positive impact on your career...

They should upgrade their self in the new era of teaching method

Teaching and learning improve when lessons are active, full of dialogue and enjoyable. Teaching is more effective when teachers give clear explanations and know how to ask open questions which lead students enquiries further. Their classroom skill is based on a sure foundation of knowledge of their subject.

1. Increase the number of staff members like in physics department there are i think only 2 or 3 AP's .
2. Increase the laboratory equipments.
3. Give the students work a day in a week whether it shall be PPT or assignment etc

Teaching should be as per students level

Teacher must follow guidelines of syllabus and satisfy students with nicely

Most I find that teachers often teas students with their normal intention

So this thing should not be present in teacher.

Thanku

Try to reach every student and ask for their doubts.

Experimental teaching should be developed a little bit.

Design curriculum keeping in mind student interest and need.

Use better graphics and visual media to engage students well.

Try to reach every student and ask for their doubts.

Make teaching a two way interaction.

1. Avoid passive learning environment
2. Lack of practical exposure
3. Revamp teaching methods

Extracurricular activities should be encouraged

Projector and multimedia should be used

Sports council should be encouraged

First of all teachers should treat all students equally,this is not for all trachers but for maximum.

And to me evaluation of exam papers should be done also equally among students i.e there should not be favouritism ,nor in teaching

And as much the syllabus has covered by teacher , should come in the exam

Lastly it is of my opinion because I have experience this ..

Thank you

Your previous passed out student 😊

I had a subject (additional) TROUBLE SHOOTING OF ELECTRONIC EQUIPMENTS. I have never seen where that class is and who is the teacher .

Some of the teachers are like 100/100

Some even don't know how to teach , having knowledge dose not mean that you are an excellent teacher only should have a skill to teach , from my point of view college should take

that thing in notice.

Rest i belong to stream B.com B COM i don't know why every teacher is having problem with the students of B.com not only teachers even whole college, i thought for a teacher every student is same but this criteria changed when i entered Islamia 🤔.

Thanks a lot

1: Teachers/institutions should made strong efforts on growing up and learning process of students.

2: Teachers should encourage students every situation.

3: Teachers/institutions must give opportunities to students to participate in curricular activities.

The three suggestions of my is

1..Encourage active and practical learning

2.. facilities in class discussion groups and group work

3..spend more time with students and communicate with them personally

4..Ask them to take a topic for self learning

good

1.Need of Highly qualified and more (expert teaching) staff. Our institution lack infrastructure such as building,Classrooms,Management department.

2.Need of Educational tours and use of ICT tools at a greater extent in the college.

Programmes should be conduct and speeches by scholars to motivate the youth/students.

3.Teachers should focus on improving the students abilities and conduct extracurricular activities.

In short we need to develop discipline in every manner in our colledge.

they are concentrating on uniform and id card they don't care about studies and students as well

Listen the grievances of ur student, make sure your issues are solved before conducting examinations as we students suffer a lot,

Focus on weak students(not all students are good at learning)

Maintained infrastructure

Avoid teacher turnover

I think the biggest problem with this institution is that they don't allow students to communicate.I have had many interactions with the staff, including the principal, and I found their way of communicating to be rude and unprofessional.

Include practical knowledge

Like field trips

It is nice college with all facility and all teachers are overall best in all ways

1. Make teaching a two way interaction.
2. Try to reach every student and ask for doubts.
3. Make eye contact with students.

- 1 The College should provide internship programmes for students so that students can learn new things and can avail good scholarship for their further studies .
2. Being an autonomous college, there should be some change in curriculum to meet the demands of the present times .
3. Being a student of phy and mathematics I think the college should conduct seminars, interactions so that the student develops a motivational mindset to learn new things.

Availability of smart class rooms

- *Use better graphics and visual media to engage students well.
- *Try to reach every student and ask for their doubts. ...
- *Make teaching a two way interaction

Guide well

1. Use better graphics, and usual media to engage students well
2. try to reach every student and ask for their doubts
3. make teaching a two way interaction

All are good.

As an MBA Student our college Should engage us more in field activities...

Please check the performance of the students

1. Provide opportunities for students to be a mentor and to function as a peer teacher..
2. The management should conduct debates, seminars and talks for the students.
3. The management should conduct learning activities in the classroom with the help of technology or any material.

1. Need of more equipments in labs for better learning of lab courses.
2. More student teacher interaction during classes.
3. More use of ICT tools.

Please arrange permanent teacher's for us...It's a request 🙏

Teaching and learning experience is good...

1. Teachers should try to understand the situation of students properly
2. one thing that I noticed there that I'm sorry to say that the teachers always threaten the students regarding their results that your result is in my hands don't show me your attitude etc I will mark you fail and no one will blame me. This is totally injustice to students

They should try to communicate with students about various issues rather than deciding about them on their own.

Use of more real life applications of the theory part.

They should be friendly with students

Teachers should act like professor and not like school teacher

Teacher should not be biased towards anyone

If a student is having an issue the department should help and motivate him/her. They should not demotivate him/her and tell him/her go you can't do it.

The department roasts the student instead of encouraging him.

That leaves a student with a bad mark on himself....this leads to some deadly things student uses to overcome this mark

The overall experience is good but they should also try to understand the situation of students and providing them some comfort that's all

1. Updating teaching and learning methods
2. Effective course content.
3. Personalised guidance.

Select those teachers on contracts who can teach well

Take regular classes of every subject

Give students chance to select teacher of subject

During lectures, teachers should focus mainly on the topic & sub topics mentioned in the syllabus and not starting anything that is unnecessary

Try to cover all the syllabus before external exams.

No notice is provided to the students regarding holidays.

Please don't change the time table after every week or 3,4 days.

Thank you

Teachers are good but need to improve the method of teaching sometimes we understand very well but sometimes we even didn't know what he/ she is teaching us

Nothing to improve

The teacher's should indulge students in some other activities so that they don't get bored with

the same way of teaching

....

Incorporate Active Learning Strategies
Utilize Technology as a Teaching Tool
Foster a Supportive Learning Environment

Fuck you

Mai bht pachtaa rhi hu is clg mai aanai sai ...hmeshaa t series k peechai lagai rhtai hai
hmai pagal krkai rkhaa hai ..FE mam ka kxh smj nai aataa hai ...woh khud ko hi pdhaa rhi hoti
haii ... HMAARAA ENGLISH BLOCK KI TOH KXH KHABAR HI NAI H ...WOH KIS MASTI K SAATH
HOTAA HAI

I'm an average student,the thing that troubles me is that the teachers don't interact with the
students well and thus we are afraid to ask questions or queries..no doubt that there are few
teacher's that literally give there 100% and I'm glad about that because that's what brings me
to college but as I said they're only few.

Student teacher friendly relations
Helping attitude towards students

Best autonomous collage in j and k

Can make a decided time table for classes and examinations, ask students choice for
subjects.

Our institution provides a very higher level of education.. so i am guessing i am not that good
to suggest them something... because its already better than the best!

Other

Parking for cars

Canteen should be hygienic

..

All good

-

Need some improvements

JUST BE COOL AND FRANK TO STUDENTS

THAT'S ALL A GOOD RELATIONSHIP BETWEEN STUDENT AND TEACHER NEED'S TO BE

I do not think the way our syllabus is designed is alright. It does not do justice to the course in general. It would be better if they consider better options and take help from the syllabus provided by leading universities, just try to understand how they design their syllabus.

Development needed in whole curriculum

Examination department should check papers correctly and not give marks on the basis of the number of pages filled .

By

Excellent

Noo.....?

Need to improve

Not bad

not at all

They are trying there best they only need support and encouragement

All is satisfactorily

The library fine fee charges is so high this is not good for us especially msc students kindly take the charges less

Just try to communicate with every student.

And take proper action towards everyone's suggestions.

Give the students permission to visit the upper floor of library. Please

Most there is discrimination in colg I find in sports as well as canteen facility. Boys portion of canteen is strongly in bad condition, And in sports the management choose players as per their choice not as per players ability. thesa things should not be present fairly in colg

Thanku

Everything is excellent

The atmosphere at our college resembles more of a school setting focusing more on a structured educational approach rather than a college environment that provides opportunities and resources for personal growth and skill development.

The books in. The library are not enough for science stream & prescribed books are not available mostly

Why is their not a seperate column for IT section and that section out side department of commerce where Sajad sir sits, i would have rated them 0 .

"Something' I really appreciate our college faculty....

good

Need to develop and improve ...

they should change the principal because he don't deserve to be there because he is concentrating on id card uniform instead of studies and student's

Do whatever possible to save the future of ur college as we suffer a lot due to ur issues may be technical Or others.

We need some breaks like picnics etc

We have a subject called 'Communication Skills'. What is the purpose of that subject if we aren't allowed to communicate?". Every time I tried to have a conversation with anyone in this institution, all I got was 'don't talk back', 'shut up', 'get lost', etc.

It's really excellent in every field

There should be some restrictions for those who don't read in the college to enter the premisis

Not at all

no thanks

No suggestion is needed

Please don't waste the time of students

Please include educational tours and extra class for activities and games....

No comments

But Overall facilities are good

Improve there time management

Teachers are the mentors of students. The staff should act like ones

Please share your personal experience to let a student understand the difficulty in real life

Give every student chance in sports

The medical dispensary should hire more female staff for female students

Need more improvement

Try to maintain the decorum of library. Students are always making noise inside the library, and the librarian also use his phone in the library.

College is good and faculty also, but also need to improve the method of teaching

Nothing special

you all need to chill.

Noo

Yes i have a suggestion for principle ...that you have a instagram acc. so plzz upload notifications that also ..people are always search thereand our department ...they are also busy in their lifes ... plzzz give reply on time ..students are waiting for your replyHANIEF SIR IS THE BEST TEACHER IN THE WHOLE COLLEGE

No suggestions

Stress on hygiene! Cleanness, dusting

1. Faculty shouldn't be so rude with students while mock test many students were not able to understand that as there was so much of quos . So teachers must be learnt to students .they could have teach the students about the mock test learntly as many students r not aware of the zoom..

Sport is important college should take us to picnic

Over all good

Paper tou thk se check kiya kro..

Everything seem excellent

T

Teachers are best in college.....

Fair evaluation of exam papers should be done.

Need more (literature)books in the library,
better sanitation in washrooms...they are just dirty and unhygienic.

prioritize student relationships abd student centred inquiry.

the suggest... I already mention...

They are all good teachers may Allah bless them all.

It was great experience being a part of this Institute.

Quality of education is not fair.

The college lacks to maintain the student discipline within its jurisdiction, it seems more a club to enjoy than an institution.

We can always evolve and improve in every aspect

Sports wing should be fair

Management needs to be improved

Provide employment opportunities and internships

Satisfied with all facilities available in the college

Aforementioned in form

Sports faculty are not good as much as we expected so improve their behaviour

Gud

All good and best of our college

No sir

Teaching staff is outstanding but not all.
